

As a citizen of Indiana I ask that the FCC continue to allow us to be a part of the "No-Call" List. My right to privacy (and peace and quiet) supercedes anyone's right to sell me a product via telephone that I have not solicited and do not wish to purchase. I have greatly enjoyed the quiet times this law has allowed in my home, and I have no desire to relinquish my serenity to companies who have no right to invade my privacy via my phone line.
